Mumbai, India | +91 8975469714 | sanskarnarkar7@gmail.com
GitHub: github.com/SanskarNarkar

PROFESSIONAL SUMMARY

Artificial Intelligence & Machine Learning undergraduate with hands-on experience in Full Stack Development using Python, Django, Django REST Framework, React, JavaScript, SQL, and REST APIs. Experienced as a Full Stack Development Intern and Part-Time Software Trainer. Passionate about backend development, scalable web applications, and currently expanding expertise in Generative AI, FastAPI, LangChain, and cloud technologies.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, C, C++, C#

Frontend: HTML5, CSS3, Bootstrap, React.js, Responsive Web Design

Backend: Django, Django REST Framework, REST APIs, JWT Authentication, Flask (Learning), FastAPI (Learning)

Databases: MySQL, PostgreSQL, SQLite, MongoDB

AI & Cloud: Generative AI (Learning), Prompt Engineering, LangChain (Learning), Azure Fundamentals (Learning), AWS Fundamentals (Learning)

Tools: Git, GitHub, Postman

EXPERIENCE

Part-Time Software Trainer | Present

- Deliver technical training in Python, Django, SQL, HTML, CSS, JavaScript, C, C++, and C#.
- Mentored students in full stack development, REST API development, database design, debugging, and software engineering best practices, fostering their technical growth.
- Guided learners in building real-world applications, enhancing their problem-solving skills and practical application of concepts.
- Facilitated debugging sessions, reinforcing understanding of software engineering best practices and improving student confidence in troubleshooting.

Full Stack Development Intern | Unified Mentor (Virtual)

Jan 2025 – Jul 2025

- Designed and integrated RESTful APIs with relational databases, enabling seamless data flow and scalability in applications.
 - Developed responsive full-stack web applications using Python-based backend technologies and modern frontend frameworks.
 - Collaborated in debugging, testing, and optimizing performance to enhance application reliability throughout SDLC.
-

PROJECTS

Disaster Management System | React, Django REST Framework, SQLite

- Developed a real-time disaster response platform featuring SOS alerts, survivor tracking, and nearby shelter detection.
- Built RESTful APIs and integrated geolocation services for efficient rescue coordination.
- Designed an administrative dashboard to monitor rescue operations and resource allocation.

BookVerse | Django, Django REST Framework, PostgreSQL, JWT

- Developed a full-stack online bookstore with secure JWT authentication and RESTful APIs.
- Designed a modular backend architecture and integrated frontend components with backend services.
- Managed relational data efficiently using PostgreSQL.

Milk Pay | Python, Django, SQLite

- Built a milk collection and payment management system with CRUD operations and automated payment calculation.
- Implemented role-based authentication with dedicated Admin and Farmer dashboards.
- Optimized backend operations using Django ORM and efficient database design.

EDUCATION

Bachelor of Engineering (B.E.) – Artificial Intelligence & Machine Learning
Viva Institute of Technology | CGPA: 8.06/10 | 2025 – 2028

Diploma in Information Technology
Government Polytechnic Mumbai | 86.17% | 2022 – 2025

Secondary School Certificate (SSC)
Madhavrao Pawar Vidyalay, Kokisare | 87.40% | 2022
